

We Use Saloncide In Our Salon/Shop Because.....

Effective – with a germ Kill rate of up to **99.998%** on Bacteria, Fungi & Viruses on any surfaces, tools & equipment. (Most others are 99.9%)

Certified – to be effective against Coronaviruses including Covid-19

Tested – to European Standards EN1276, EN14476, EN1650 & EN13727

No Hidden Nasties – Saloncide is alcohol, acid, solvent, paraben, bleach FREE. It's also non-toxic, non-flammable, non-irritant & fragrance free

Fast Acting – on most Bacteria & Fungi within 1 minute & up to 2 mins on viruses

Long Lasting – Saloncide continues to work long after application

No damage or discolouration – on surfaces (porous & non-porous), tools & equipment & can be treated without risk of discolouration or micro-cracking

Far Reaching – by working through the tiniest of cracks in surfaces leaving nowhere for germs to hide. Previously damaged surfaces are fully disinfected reducing contamination risk

Protects – delicate surfaces like leather and prolongs working life

Low Hazard – COSHH rating

Versatile – by being a 3-in-1 formula in light cleaning, disinfecting & deodorising

Odour Free – by destroying the bacteria and moulds which cause bad smells

Powerful – disinfection solutions but still kind to any surface

Gentle – for skin/ hand sanitising
